RENEWING OUR EFFORTS TO FIGHT GOVERNMENT CUTS

The government and Catholic school board trustees have accepted the Association's proposed bargaining dates, which means negotiations will resume on January 9 and 10.

It is important for everyone to enjoy some well-deserved rest, relaxation, and time with friends and family over the holidays. However, we also need to be aware that we will have to return in January ready to do what is necessary to reach an agreement. Unless the Ford government indicates some willingness to abandon their reckless cuts to publicly funded education, this very well could include job action.
